iOS Apps:

Pack A Pallet

A universal iOS Application that shows in 2D & 3D Models, how to fill an export pallet with boxes of different size.

- Isgl3D a wrapper for OpenGL has been used to show 3D models.

<https://itunes.apple.com/us/app/pack-a-pallet/id735917888?ls=1&mt=8>

DateaTe:

<http://itunes.apple.com/app/dateate/id550272076?mt=8>

Sema Connect

<https://itunes.apple.com/us/app/semaconnect/id471861561?mt=8>

iShapeMyShape

An application that allows you to track your weight gain/loss program by showing visually graphs and charts of your actual progress vs ideal progress. It also shows you in form of a human figure, the changes occurring in your body shape.

Create your own "Diet plan" & "Exercise Plan".

- Created custom library to draw graphs.

<https://itunes.apple.com/en/app/id939947551>

Access Property App:

It is an enterprise application, which deals with surveying properties in UK. The application has multiple forms that are created dynamically according to the fields supplied from the backend server.

User can conduct 3 different types of surveys and the reports are then generated in PDF format that can be emailed. The survey includes entering description for property items, their conditions and photos.

- Extensive use of CoreData & Relationships.
- RESTFul web-services with GET and POST methods. Request data format: JSON.

Like2

The App utilizes CoreBluetooth framework and runs in background. It detects nearby “Beacon” and prompts the user of various offers available by firing notifications. Estimote Beacons used.

Back Fix
